

# SUPPLY SERVICES

## STRENGTH AND DIVERSITY OF SUPPLY SERVICES

Panhandle Eastern Pipe Line Company, Trunkline Gas Company and Sea Robin Pipeline Company have access to the major natural gas supply regions of the Louisiana and Texas Gulf Coasts (including deep water and deep – shelf supplies), as well as the Midcontinent and Rocky Mountains. This diverse supply portfolio provides our customers with a variety of reliable and economic sources.

## AGGRESSIVE ATTACHMENT EFFORTS

We have an aggressive supply connection effort and maintain a customer-focused staff specialized in seeking new producer connections. Our approach to new connections is flexible and responsive, resulting in quick, cost-effective connections.

*We provide innovative services to meet the needs of producers and gas suppliers.*

## MARKET STRENGTH

Customers include some of the nation's largest utility and industrial natural gas users. We have tie-ins to Chicago, Dayton, Cincinnati, Indianapolis, Memphis, Detroit and St. Louis. We are capable of delivering to Northeast markets via interconnects. Additionally, the pipelines have an ongoing effort to attract new markets to our portfolio. We currently serve or are directly connected to 27 power plants and continue to attract additional facilities to our pipelines. We are committed to providing the most economical value for producers' operations.

## LNG: ANOTHER SUPPLY SOURCE

Near Lake Charles, La., Lake Charles LNG Company owns one of the largest regasification facilities in North America for the receipt, storage and delivery to shippers, either in liquid or gaseous state after regasification. The terminal is near numerous major natural gas pipelines, Lake Charles LNG offers a reliable, flexible, competitively priced supply alternative.
